DONATIONS ARE EXEMPTED FOR INCOMETAX UNDER 80(G)

DR. C. MADHUSUDANA RAO
Org. Secretary

DR. C. NAGAMANI
Course Director

Madhumani Family invites you to attend the FESS & MICRO EAR SURGERY WORKSHOP in Nandyal, which is a small Semi urban township in rural part of India teaching high graded ENT Surgical Skills.

Micro ear surgery is bread and butter for ENT surgeons in India. It is not tens, hundreds or thousands but there are millions of CSOM cases in India and it is the basic duty for every ENT surgeon to master the skills of the micro ear surgery.

FESS has also revolutionized the concept of the sinus disease management and made difficult sinus problems curable and treatable through endoscopic approach. Due to huge population in India the problem of sinus diseases are quantitatively very high. We are lacking in properly trained ENT surgeons to meet the demand of so many patients suffering from sinusitis who need FESS operation.

This workshop is mainly to focus right from holding the endoscope, setting up FESS table, developing the coordination between monitor and patient field, maintenance of equipment, recording and documentation of datapost operative management etc which are usually not much covered in FESS workshops.

We are planning to demonstrate the very basic operation steps by live surgical demonstration done by renowned specialists and also two way interaction to clarify all the doubts lurking in the minds of the delegates.

I am sure, I will keep up to your expectations in giving you maximum academic feast for two days. Feel free to contact me for any help and suggestions.

Yours

Madhumani Family

Co-Ordinators :-

Dr. C. Manideep, M.B.B.S.,

Dr. C. Madhu Preethi, M.B.B.S.,

Guest Faculty

Dr. H. VIJAYENDRA
